

# Ironmongery for Fire and Escape Doors

RIBA Approved CPD

## The seminar covers

- Understanding the importance of fire and escape doors, why we need them and how to specify the correct ironmongery referring to the appropriate BS EN Standards.
- Understanding the reasons for regular inspection and inspection methodology.
- Understanding the maintenance of ironmongery on fire and escape doors.
- Understanding the legal, financial and ethical consequences of ignoring the risks regarding correct specification, supply, maintenance and inspection of fire doors.
