HANDRAIL & BALUSTRADE SYSTEMS

Corridor and stairwell systems
Designed for stability and support
Providing safety

Bespoke Compliant High quality

At Lloyd Worrall we have a range of high quality handrail and balustrade solutions using materials designed to enhance the overall living space.

We understand that products used within a residential building must meet the highest standard of performance to ensure safety of those using the facilities whilst creating a welcoming and impactful atmosphere.

Designed to be easily grasped for ultimate stability and support, our selection of handrails can be used in corridors and stairwells to ensure safe, secure and cost-effective access for all building users

Our handrail and balustrade team are on hand at every stage of the process to give advice on all aspects of the specification, legislation and best practice guidance.

All of our well-designed systems are tailor made to meet the exact needs of the project and are available in a range of high quality materials:

Timber and stainless steel:

timber handrails combined with stainless steel brackets and ends, creates a soft, warm look to complement a building's interior. The system can be visually linked with other interior design features such as doors and furniture, giving a homely feel.

Stainless steel:

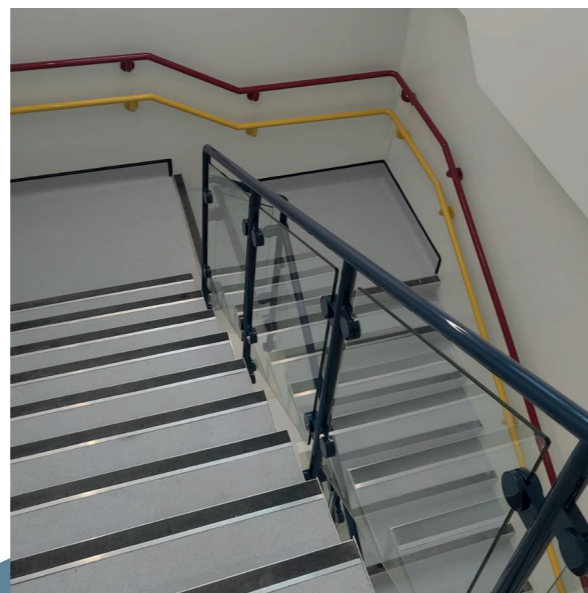

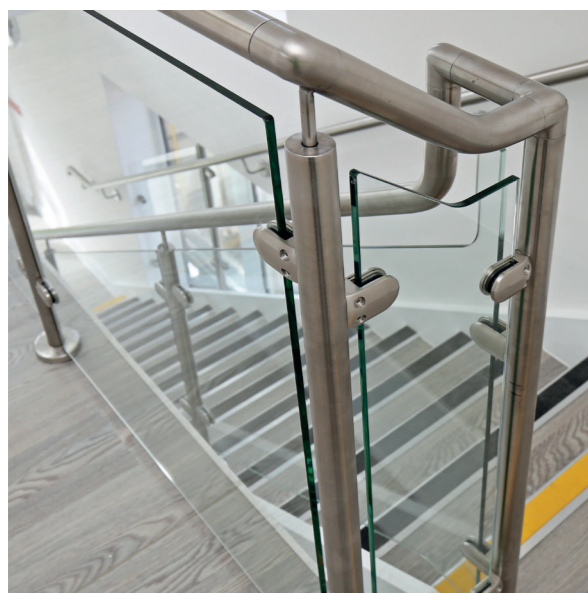

a flexible system that provides the opportunity to create handrail and balustrade to high traffic areas which are aesthetically pleasing and have lasting visual appeal.

Nylon:

high performance and low maintenance make nylon an ideal material for high traffic environments such as stairwells. With the vast range of colours available, nylon handrails can also be used as an orientation aide.

Infill materials:

a variety of infill materials for durability and safety but also to create visually impressive spaces.

HANDRAIL & BALUSTRADE SYSTEMS

Why Choose Lloyd Worrall?

When choosing an appropriate handrail solution for care homes and independent living schemes, the main factors that need to be considered include:

- stability
- safety
- contrast of colour to background
- easy and safe continuous grip
- the need for upper and lower handrails
- easy to clean
- low maintenance
- cost-effective

Aesthetically designed solutions

Just as important is involving the right handrail and balustrade provider.

Lloyd Worrall provide technical advice and personal service from the start, resulting in greater flexibility in aesthetic design, and minimising time and risks to costs on site.

- 1** All handrail and balustrade solutions are made to measure and feature high quality materials and components across the range.
- 2** All systems are tailormade to exact measurements, eliminating the need for on-site cutting and welding. As a result, installations are quick, clean and less noisy.
- 3** Our experienced team provide a full service which includes site survey, design drawings, manufacture, installation and high levels of project support on every project.
- 4** The health and safety of residents, staff and visitors is of paramount importance and our systems conform to all current legislation and UK Building Regulations.
