HANDRAIL & BALUSTRADE SYSTEMS

Tailor-made systems:
Entrance hallways
Garden terraces
Stairwells
Balconies

At Lloyd Worrall we have a range of high quality handrail and balustrade solutions using materials designed to enhance the overall living space.

We understand that products used within a multi-residence building must meet the highest standard of performance to ensure safety of those living in, and using the facilities whilst creating a welcoming and impactful atmosphere.

We offer a wide range of handrail and balustrade solutions to complement any residential building, from historic homes to modern new-build developments.

**Bespoke
Compliant
High quality**

Our handrail and balustrade team are on hand at every stage of the process to give advice on all aspects of the specification, legislation and best practice guidance.

All of our well-designed systems are tailor-made to meet the exact needs of the project and are available in a range of high quality materials:

Timber and stainless steel:

timber handrails combined with stainless steel brackets and ends, creates a soft, warm look to complement a building's interior. The system can be visually linked with other interior design features such as doors and furniture.

Stainless steel:

a flexible system that provides the opportunity to create handrail and balustrade to high traffic areas which are aesthetically pleasing and have lasting visual appeal.

Nylon:

high performance and low maintenance make nylon an ideal material for high traffic environments such as stairwells.

Structural glass:

offer simplicity and open uninterrupted views, maximising space for apartment balconies, entrance hallways and garden terraces.

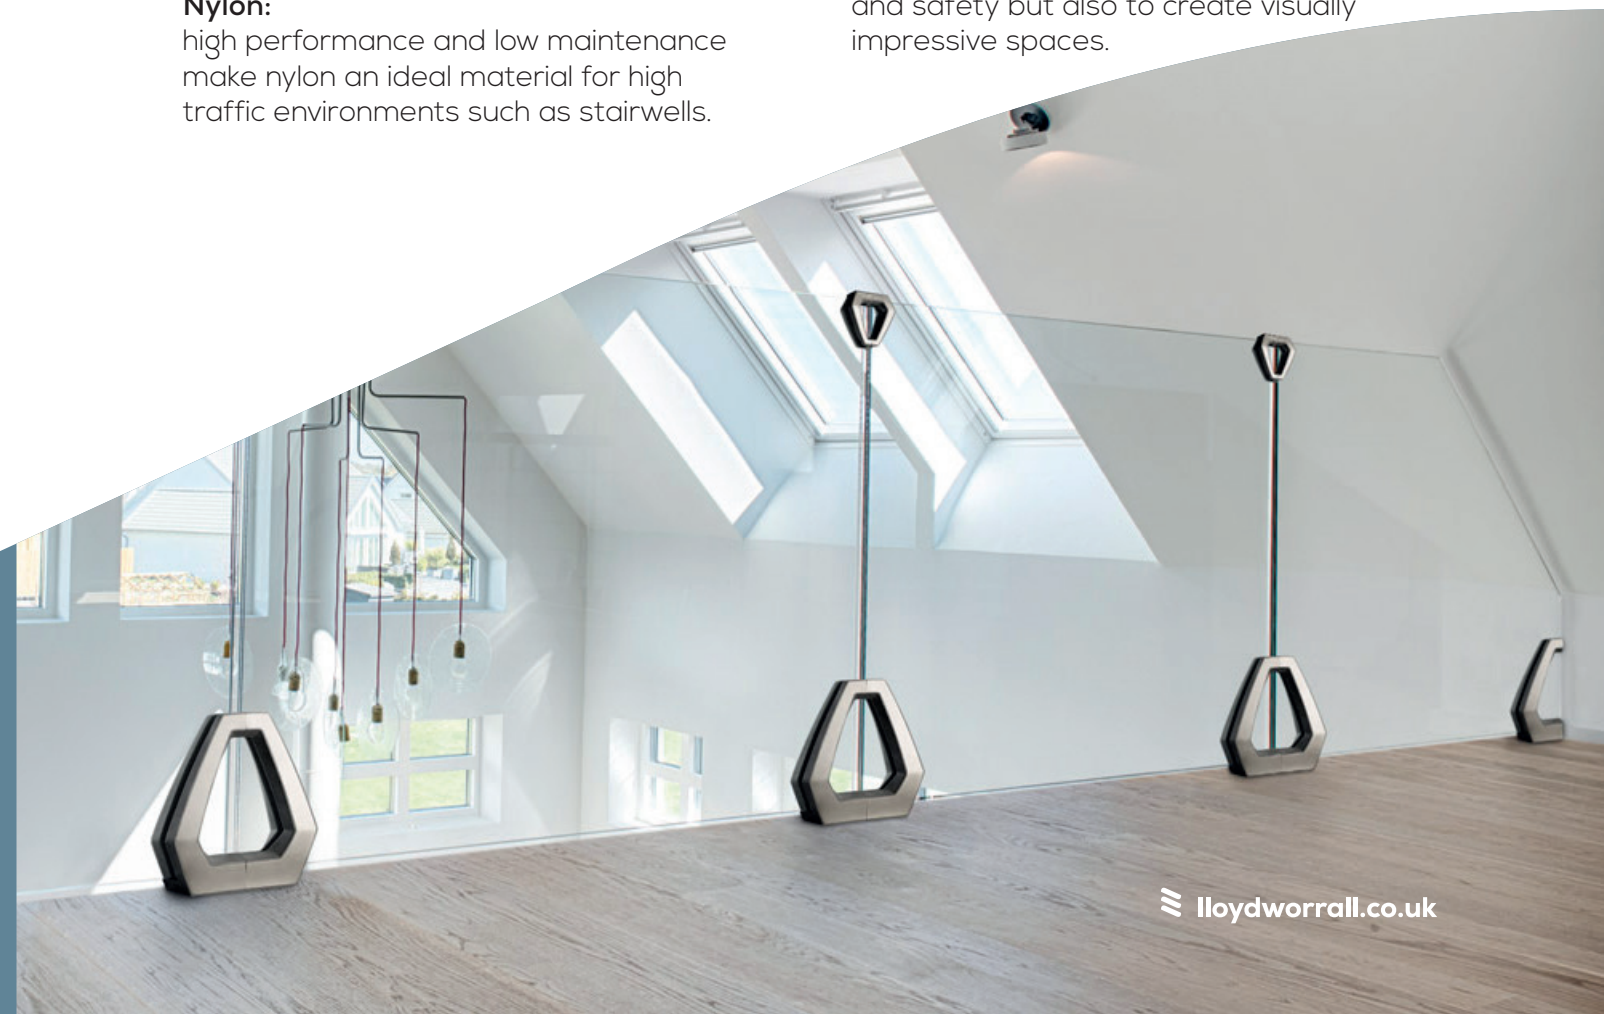

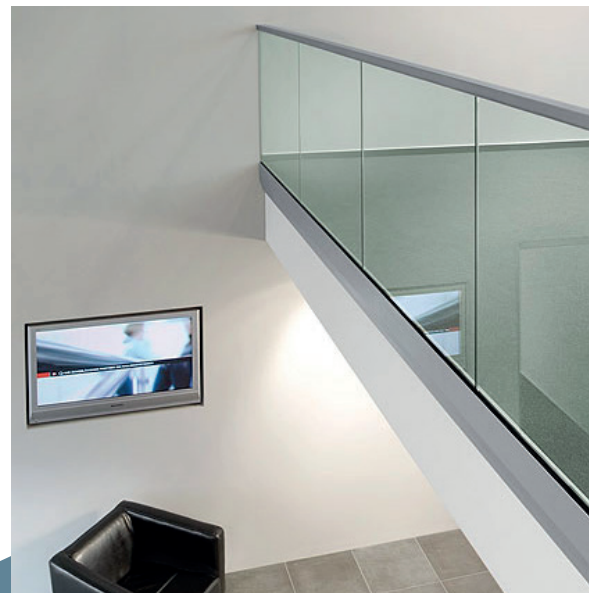

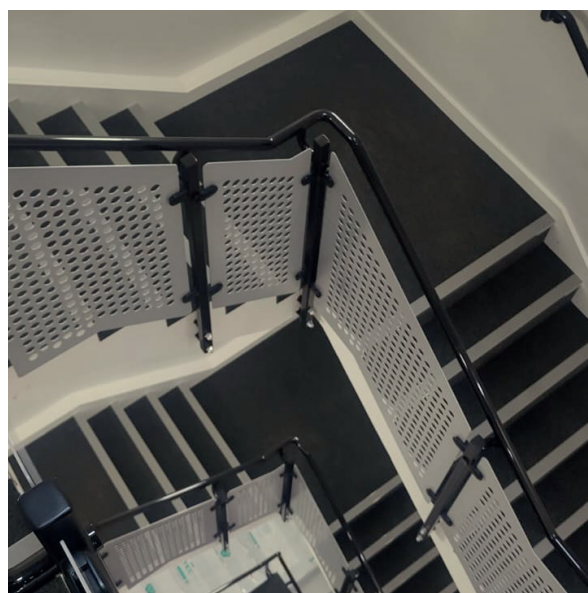

Juliette balconies:

a very effective way of bringing an open, outdoor feel to an indoor space when a projecting structure isn't an option.

Contact us for a copy of our balcony brochure.

Infill materials:

a variety of infill materials for durability and safety but also to create visually impressive spaces.

HANDRAIL & BALUSTRADE SYSTEMS

Why Choose Lloyd Worrall?

Aesthetically designed solutions

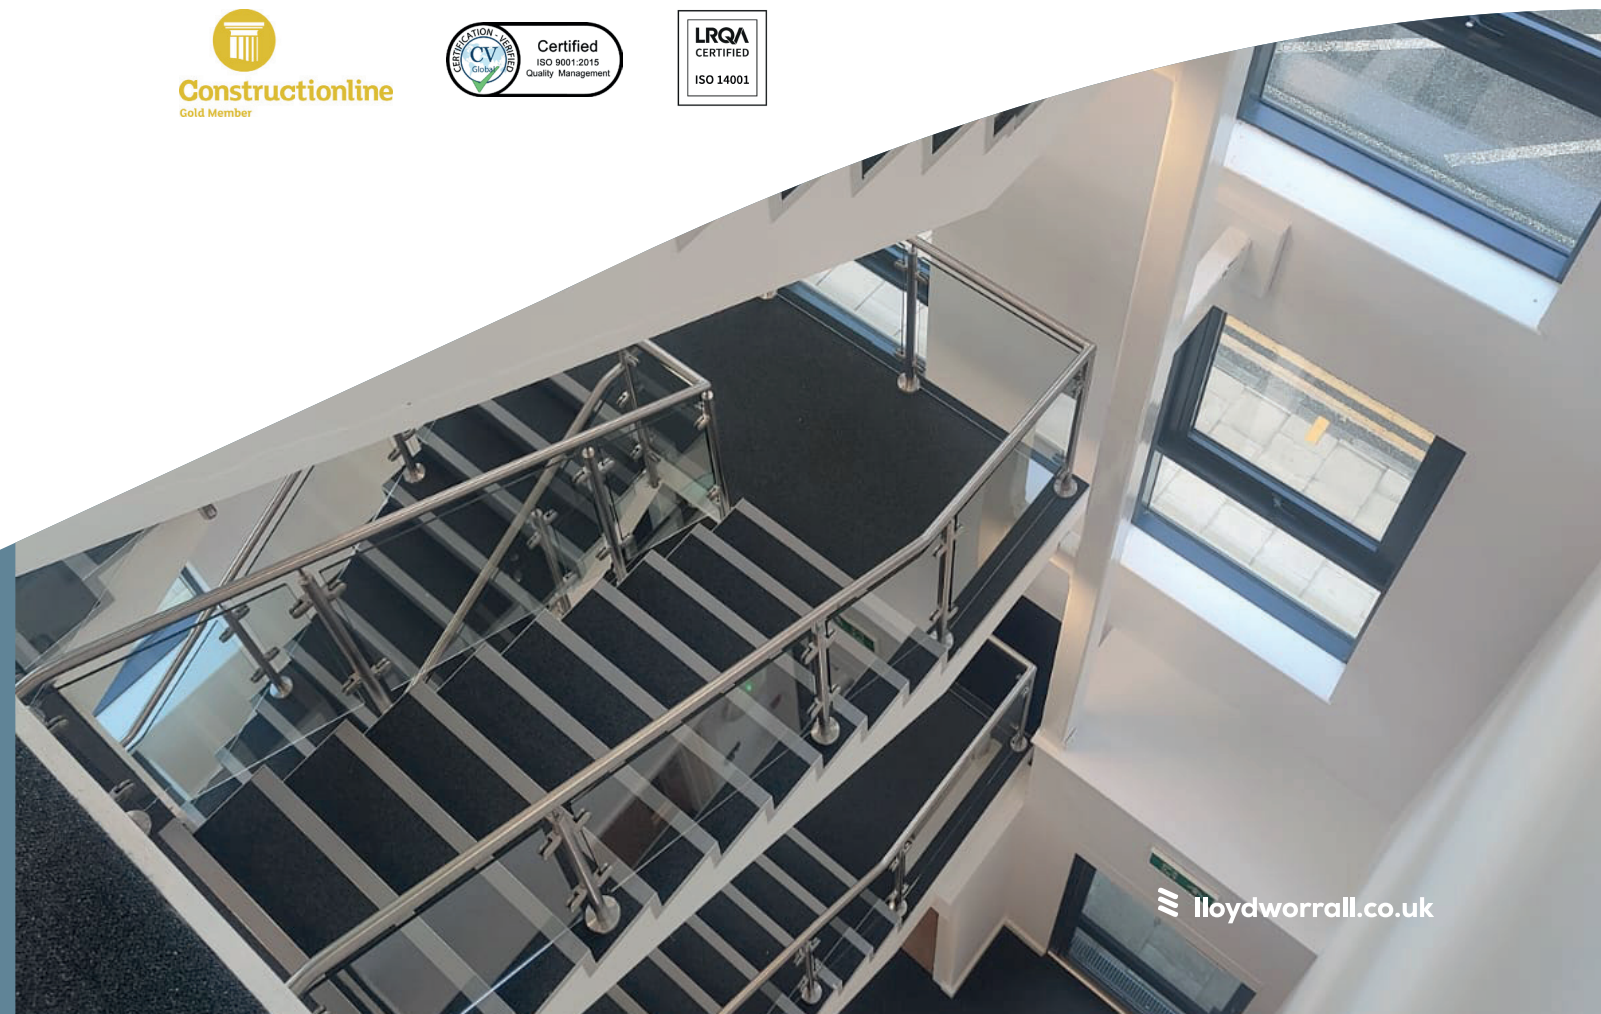

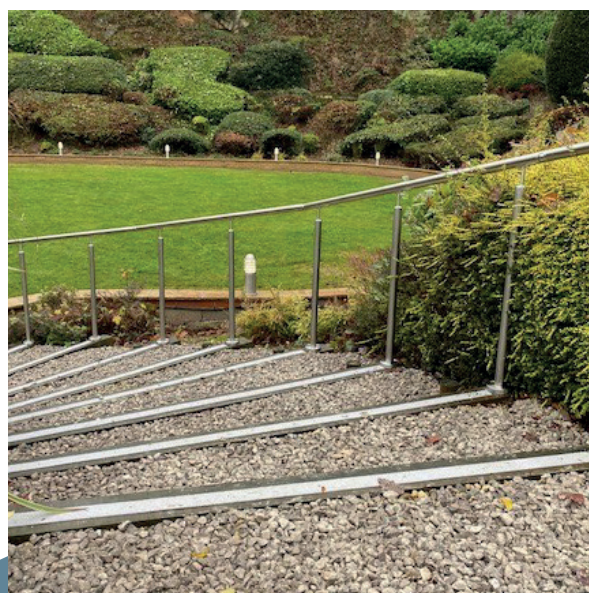

Housing developments are being driven by the need to provide solutions that are architecturally distinctive and which make it simpler and more cost-effective to achieve the highest standards of design and performance.

Involving the right handrail and balustrade provider is just as important.

Lloyd Worrall provide technical advice and personal service from the start, resulting in greater flexibility in aesthetic design, and minimising time and risks to costs on site.

Our modular range of handrail and balustrade systems enhance the overall living space, providing a safe, cost-effective and impactful environment.

- 1** All handrail and balustrade solutions are made to measure and feature high quality materials and components across the range.
- 2** All systems are tailormade to exact measurements, eliminating the need for on-site cutting and welding. As a result, installations are quick, clean and less noisy.
- 3** Our experienced team provide a full service which includes site survey, design drawings, manufacture, installation and high levels of project support on every project.
- 4** The health and safety of residents and visitors is of paramount importance and our systems conform to all current legislation and UK Building Regulations.
