## access control & door automation

## Job Details

**Job Ref:** SB1341432ManECDA  
**Solution:** Access Control & Door Automation  
**Location:** Manchester, M17 1PZ  
**Contract Type:** Permanent  
**Salary:** Competitive with Benefits Per Annum

### Main Role ▶

**We are seeking a highly skilled and experienced Intercom, Access Control, CCTV and Auto Door Engineer to join our team, covering the Manchester, Sheffield, Leeds, Stoke and Newcastle area.**

The successful candidate will be responsible for installing, maintaining, and repairing intercom systems, access control systems, CCTV and automated doors in residential and commercial properties. They will work closely with clients, project managers, and other team members to ensure the highest quality of work and customer satisfaction.

We rely on our Engineers to provide a professional service, delivering schedules on time and handling technical queries raised by clients. Covering 3 of our depots you'll be part of a team where everyone is putting in the effort in to offer brilliant customer service and to get the job done.

### Key Tasks and Duties ▶

- Install and configure intercom systems, access control systems, CCTV and automated doors in residential and commercial properties
- Conduct routine maintenance and repairs on intercom systems, access control systems, CCTV and automated doors
- Troubleshoot and diagnose issues with intercom systems, access control systems, CCTV and automated doors
- Work with project managers and clients to develop customized solutions that meet their specific needs
- Collaborate with other team members to ensure timely and efficient completion of projects
- Provide technical support and guidance to clients and team members as needed
- Keep up-to-date with the latest industry trends and technologies
- Adhere to all safety regulations and guidelines

### Experience ▶

We know you are more than just a CV and embracing everybody's individuality is what makes us great as a team. However, due to the nature of the role you would need the following:

- Minimum of 3 years of experience in the installation, maintenance, and repair of intercom systems, access control systems, and automated doors
- Strong technical skills and knowledge of relevant tools and equipment
- Excellent problem-solving skills and ability to troubleshoot and diagnose complex issues
- Excellent communication skills and ability to work effectively with clients, project managers, and other team members
- Attention to detail and ability to deliver high-quality work
- Ability to work independently and as part of a team
- Knowledge of relevant safety regulations and guidelines
- Valid UK driver's license and reliable transportation
- Pass a DBS & security checks
